

SEE YOURSELF AT AMERIGAS

As America's largest propane provider, when you sign on at AmeriGas you become a part of something BIG. But more importantly, you can make a BIG impact where it matters most, with our customers. We've been proudly serving over 1.3 million of our neighbors by fueling their homes, businesses, and auto fleets since 1959.

When you join AmeriGas, you join a team of over 6,000 professionals who are dedicated to delivering approximately 1 billion gallons of propane to our customers from 1,400+ points of distribution in the United States—you're fueling whole-home comfort, local businesses, and the communities that rely on both.

Are you the customer-focused, passionate, and reliable service technician we need on our team?

WHY WE NEED YOU

As an AmeriGas Service Tech, your daily job functions of safely delivering propane, completing new installations, and conducting maintenance are only half your story. Your true value lies in the positive impact you have on every customer you serve, at every stop you make, every single day.

Our service technician's punctuality, efficiency, focus on safety excellence, and passion for customer service makes all the difference.

WHAT WE'RE LOOKING FOR

- A safety focused mind with a customer first attitude.
- A willingness to safely brave all weather conditions to keep our customers secure, comfortable, and fuel-filled.
- Ability to work a rotational schedule with certain "on-call" commitments.
- MUST be 21 years of age.
- MUST have a CDL A or B with hazmat, tanker, and air brake endorsement.
- MUST have a great driving record.

WHAT YOUR DAY WILL BE LIKE

No two days will ever be the same, but your key role is to represent AmeriGas while safely delivering propane, completing new customer installations, and conducting maintenance for residential and commercial customers.

Here are the highlights of what you can expect as an AmeriGas Service Tech Crew member:

Arrive at work between 5am – 7am (depending on your location) geared up in your AmeriGas Personal Protection Equipment and ready for an 8 to 12-hour shift.

Identify and repair leaks in tank valves and seals at customer sites. Maintain service vehicles: review maintenance records and perform pre and post trip safety inspection.

Drive and operate a flatbed truck with an attached boom and crane to install and remove customer tanks of assorted sizes.

Deliver propane as needed. Have a safety excellence mindset. Proactively identify and report safety concerns or violations at AmeriGas and customer locations.

Adhere to all federal and state codes and regulations and the AmeriGas Safety and Operations Policies and Procedures.

Provide excellent customer service and training at sites that refill/exchange gas tanks.

WHAT WE OFFER

Compensation

- Sign-on bonuses available
- Competitive pay with performance related incentives

Benefits

- Endorsements/training reimbursement
- Up to a 5% company-match 401k
- 7 paid holidays
